

## August 2020 Presidents monthly Message

- The Dog receptacles are being utilized more than expected. We are working with the master to have them emptied more often. We should see the over flow problem corrected soon.
- The Ash Trees are dyeing and will need to be removed. It is the home owners responsibility to remove the tree and stump.
- The new pickle ball/ volley ball court will be open very soon. Our hope is that we will get more use of this court now that it is a hard surface.
- Parking issues are getting better however there are a few cars parked on private WROA property and could be towed at owners' expense.
