

President's letter

May 17<sup>th</sup> 2021

As I travel our villages, I see lots of pride in our community and the homeowners are working hard to keep their properties neat, clean and beautiful. Thanks for your attention to detail.

We do have a few areas of concern and the WROA Compliance monitor will focus on them this month. The monitor will be evaluating trees, mold and parking. This week I will be traveling with the city code monitor and we will focus on the same issues.

Trees, Ash trees are all dyeing and need to be removed. They are unsightly and are a detriment to our property values. Any dead tree on your property including easement is the homeowners responsibility to remove. It is also important to remove the stump as well.

Mold, again please inspect your home for mold. There are lots of deals being offered by the algae removing companies. It's a good time to get scheduled as the deals are very good.

Parking, now that many of our students are returning home for the summer it is vital to plan ahead on parking issues. Parking on the street is not allowed anywhere in WingHaven. Parking on a driveway and blocking the sidewalk is not allowed and is an O'Fallon law.

Make it a great month.

Bill
